and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I use my phone for alot of reasons, but right now we need it extememly bad because I am expecting and I have to get ahold of my husband when my water breaks. Where we work we have no communication but our trac phone. And we are low income so we cannot afford anything else. Please don't charge us this. If you do I am sorry to say we are one customer you are going to miss. We spend quite a bit on out debit cards and we do not need to pay more. If you lose us, you lost about 100 dollars a month or maybe more. So I beg you not to do this!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Tarrah Hoffman
